Integrity	
Dissemination of terms and conditions under which official statistics are produced, including those relating to the confidentiality of individually identifiable information	<p>0.1.1 Responsibility for collecting, processing, and disseminating statistics</p> <p><u>Bank of Greece</u></p> <p>The Bank of Greece (BoG) is an independent agency and as of January 1, 2001 is a member of the Eurosystem, which consists of the European Central Bank (ECB) and the National Central Banks (NCBs) of Euro area member states.</p> <p>The <i>Statute of the Bank of Greece</i> was ratified by Law 3424/7.12.1927. Since then it has been repeatedly amended; the most substantial amendments were ratified by Laws 2548/97, 2609/98 and 2832/00, so as to meet the requirements of the Treaty on European Union and the Statute of the European System of Central Banks. All statistics are collected, compiled, and published in compliance with Article 55C of the Statute of the BoG.</p> <p><u>International reserves and foreign currency liquidity</u></p> <p>The data are disseminated by the BoG free of charge, as a service to the public.</p> <p>0.1.3 Confidentiality of individual reporters' data</p> <p><u>Bank of Greece</u></p> <p>Article 55C of the Statute of the Bank of Greece safeguards confidentiality with regard to individual data and requires that data be disseminated in a manner that prevents identification of individual persons or entities. Also, the employees of the BoG are bound by professional secrecy for all their actions.</p> <p>0.1.4 Ensuring statistical reporting</p> <p><u>Bank of Greece</u></p> <p>The legal basis for the reporting requirements to the Bank of Greece is contained in the Statute of the BoG, Article 55C. The legislation provides for a sanctions procedure in the event of a failure to report information requested by BoG.</p> <p>1.2.1 Disclosure of terms and conditions for statistical collection, processing, and dissemination</p> <p><u>Bank of Greece</u></p> <p>The Statute of the BoG with the amendments is available in Greek and in English on the BoG website (http://www.bankofgreece.gr) under the heading "The Bank / Legal Framework / Statute of the Bank"; hard copies of the above legislation can be obtained, free of charge, upon request, from:</p> <p>Public Relations Department Bank of Greece 21, E. Dissemination of component detail, reconciliations with related data, and statistical frameworks that support statistical cross-checks and provide assurance of reasonableness	<p>4.2.1 Internal consistency</p> <p>Data pertaining to the monetary authorities are generated by the BoG. Annual stock data on gross official reserves are published in the "Balance Sheet" of the BoG's Annual Report. 	<p>4.2.2 Temporal consistency</p> <p>Data prior to 2001 (start of Stage Three of EMU) also include claims in foreign currencies on EMU-residents and are therefore not comparable to data as from 2001 onwards.</p>
<p>Data Category Notes: Supplemental metadata referring to euro area-wide aggregates prepared by the ECB can be accessed by clicking (http://dsbb.imf.org/Applications/web/euronote/). It should be noted that the dissemination of these euro area pages does not imply any obligation on the part of the ECB under the SDDS, but is instead intended to enable the National Central Banks of euro area member states to complement the information on their national statistics that they already disseminate as SDDS subscribers.</p> <p>Country Notes:</p>
