Introduction

Each issue of the Library’s quarterly electronic publication under the title Bibliography refers to an economic, financial and banking topic of current interest. The resources listed in the Bibliography originate from the print and electronic collection of the Library. The purpose of the publication is to create ready-reference subject research tools which will be utilized by the researcher and every one interested in the topic of each issue.

The topic of the 40th issue (July – September 2016) of the Bibliography is Privatization. It is the second edition of the same topic published in issue 8 (2011). Besides the bibliographic references from the Library’s print books, a selected list of electronic journal articles and e-books are mentioned. They derive from the electronic platforms the Library subscribes to. In the end, some Greek and foreign websites relevant to the topic are presented.
